

HAO WANG

Huxi Campus, Chongqing University, Chongqing, 401331
Phone: (+86) 17830349208 | E-mail: 3254562422@qq.com

EMPLOYMENT OBJECTIVE

To obtain an entry-level full-stack software development position to build solid engineering foundations, with the long-term goal of mastering algorithm analysis and transitioning into a core algorithmic role.

EDUCATION

Bachelor of Science in Software Engineering
Chongqing University, Chongqing

Expected June 2028
Chongqing, China

ACADEMIC HONORS

- Chongqing University Scholarship (Second-Class) — 2026
- Chongqing University Outstanding League Cadet — 2026
- Chongqing University Scholarship (Third-Class) — 2025

SELECTED COURSE WORK

Data Structures and Algorithms, Computer Networks, Operating Systems, Computer Organization and Architecture.

TECHNICAL SKILLS

Languages: Java (Swing GUI, ActionListener/ActionListener interfaces), C/C++, SQL
Database & ETL: MySQL, TiDB, DBeaver, MySQL Workbench, Data Cleaning & Merging
Systems & Tools: QEMU, GDB, EPOS Kernel, Linux Environments

PROJECT & EMPLOYMENT EXPERIENCE

National Undergraduate Software Cup Competition

May 2026 - June 2026

Frontend Developer

Chongqing

- Designed and implemented responsive web user interfaces utilizing modular components, ensuring an intuitive UX and optimal cross-device performance.
- Collaborated with backend developers to establish smooth C/S management system architectures, handling event listeners and seamless asynchronous API integrations.

National Undergraduate Service Outsourcing Competition

April 2026 - May 2026

Mathematical Modeling Specialist

Chongqing

- Spearheaded the algorithmic and mathematical formulation for the team's project entry, aligning business logic with advanced analytical structures.
- Developed data pre-processing pipelines to extract 12-dimensional features from multi-source complex datasets and applied normalization to mitigate skew.

Off-Campus Educational Tutoring Center

September 2025 - December 2025

Mathematics and Physics Tutor (Part-time)

Chongqing

- Delivered targeted lectures explaining complex mathematical proofs and core physical concepts like atomic energy levels, time dilation, and length contraction.
- Analyzed student performance logs to isolate learning gaps, tailoring adaptive study guides and specialized practice matrices.

PROFESSIONAL INTERESTS

Interested in developing C/S mode management systems, exploring domestic competitions (e.g., Huawei Cup), and researching advanced topics in theoretical physics (e.g., atomic energy levels).

References will be furnished upon request.
